CREATE  
AWARENESS

INCREASE  
ENGAGEMENT

MAKE AN  
IMPACT

WITH THE QUALIFIED DECISION-MAKERS  
IN CALIFORNIA'S HYDROGEN INDUSTRY

- **\$12.6 Billion Industry:** The U.S. has invested over \$12.6 Billion in hydrogen across the state of California
- **Largest Hydrogen Market:** California is the largest hydrogen market in the United states with more than two-thirds of the industry doing business in the state
- **Longest Established and Leading Advocate for Hydrogen:** California Hydrogen Business Council is the largest and longest established membership-based trade association devoted to the business of hydrogen. Members represent the full spectrum of the industry
  - Auto Manufacturers
  - Bus and Heavy-Duty Vehicle Manufacturers
  - Components
  - Fuel Cells
  - Electrolyzers
  - Tanks and Storage
  - Utility Companies
  - Government Agencies
  - Non-Profits
  - Education Institutions

## Hydrogen and Fuel Cell News

**President & CEO Katrina Fritz's Op-Ed Featured in Los Angeles Business Journal on the Importance of Hydrogen Engines' Role in Decarbonization**

As California aims for carbon neutrality by 2045, hydrogen engines must be included in the zero-emission vehicle mandate to accelerate the transition. California's selection as a national Hydrogen Hub by the U.S. Department of Energy with up to \$1.2 billion in funding, underscores the state's leadership in clean energy. Hydrogen engines, ready for deployment this decade, offer a zero-carbon technology that can reduce emissions quickly, improve air quality, and support the buildout of hydrogen infrastructure.

Read more about how hydrogen engines can drive California's clean energy future in Katrina's op-ed.
