Our Hydrogen Mission

The CHBC educates policymakers and the public on the substantial benefits of hydrogen, while developing and advancing policy positions that support the hydrogen market across the energy and transportation sectors, with the goal of reaching California's climate, air quality, and decarbonization targets.

1

CHBC enhances market commercialization through effective advocacy and education of the public sector

2

CHBC is the go-to resource on hydrogen and fuel cell systems for policymakers and influencers

3

CHBC accelerates market growth by providing a public communication and networking platform for the industry and end users

Business Development Benefits

> Promote your brand as a hydrogen industry leader
> Receive free/discounted access to events and meetings
> Access members including suppliers and buyers
> Receive timely notice of funding, RFPs, and procurement opportunities

Market Development Benefits

> Interface with industry experts through Sector Action Groups
> Receive comprehensive industry updates
> Leverage our policy expertise and save through avoided governmental affairs expense
> Educate and influence key stakeholders

Shaping Policy Through Effective Advocacy

CHBC is the lead advocate in California for all hydrogen sectors. We build consensus around policy that supports broad market development for our members.

The CHBC serves our members with experts engaged across the state and country on legislation, regulation, and other policy to enable hydrogen markets.

By leading teams of collaborators, the CHBC ensures that hydrogen is included in energy policy across California through education and outreach to policymakers.

Mobility	Power Generation	Renewable Hydrogen
On-road and off-road vehicles and fueling infrastructure	Energy systems and distributed energy resources	Production, delivery, and storage of hydrogen resources

CHBC members benefit from shared legislative and regulatory advocacy resources that result in critical support for key policy positions and avoided costs.

Network with Our Industry

CHBC Events

- California Hydrogen Leadership Summit
- Educational webinars free to members (ongoing virtual events)
- Member receptions
- End user workshops

Message from President & CEO Katrina Fritz

"As the largest hydrogen trade association in the U.S., the CHBC is the voice of hydrogen in California. We are proud to champion this essential decarbonization pathway at the forefront of energy planning. The CHBC takes a proactive role as the state's premier policy advocate, leading discussions and advocating for critical policy objectives that support the broader hydrogen industry. Our relationships with public stakeholders and collaboration with other organizations results in removing barriers and enabling growth of the hydrogen economy in California and beyond. Join our network and connect with diverse members from all market sectors of hydrogen, from the supply chain to end users.
Welcome to the CHBC!"
